

DURA-CRETE

W A L L S

ELEVATING EXPECTATIONS

Dura-Crete Walls may be rooted in tradition, but we break the mold of "traditional". Offering both custom designed solutions and easy all-in-one enclosure kits, our walls are faster to build, engineered to endure, and far more economical than conventional methods.

- ⊞ Screen Walls
- ⊞ Sound Barriers
- ⊞ Privacy & Security Fencing
- ⊞ Dumpster & Equipment Enclosures

COLORS

Our primary color selection was designed to compliment a wide variety of masonry tones to help ensure effective municipal code compliance. For design goals that include custom colors please contact our team for additional assistance.

CORAL ROSE MESA BUFF NATURAL GRAY

FORM & FUNCTION

Build screen walls, sound barriers, security fencing, and enclosures with exceptional performance and efficiency. Providing complete privacy and a sound transmission coefficient of 41, creating peaceful environments is simple.

ENDLESS VERSATILITY

Ideal for Municipalities, Critical Infrastructure, Commercial Business, Mixed-Use, Multi-Family, Warehousing, Distribution, Office, and Retail – the system's versatility makes it easily adaptable to serve a variety of applications.

TIMELESS STYLE

Achieving aesthetic character through concrete is easy with both Off-Set Block and Vertex styles. Or create a custom look with the help of our dedicated design team. In all we do, we remain committed to crafting both beauty and strength.

MADE IN THE USA

Dura-Crete Walls is a 2nd generation privately owned company, proudly producing in Warren, Michigan since 1996. As an American manufacturer, our standards are high – for our products, our people, and the clients we serve.

DRIVEN BY A PASSION FOR DELIVERING MORE THROUGH INNOVATION & SERVICE

We are a proud collective of companies, family owned and operated for over 45 years. From the beginning we've served the construction industry with a dedicated workforce of installation and site work professionals. By providing great work with a proactive service model our reputation grew as did our company.

In pursuit of providing better products, we expanded to include custom metal and precast concrete fabrication.

Our products are designed to exceed client expectations and bridge the gap between elegant appearance and practical construction. With over 50,000 square feet of manufacturing space, we accommodate projects of all sizes across the country.

From design to construction, our team is here to support your project – we look forward to working together!
