DURA-CRETE  
WALLS

FF  
FUTURE FENCE

FUTURE FABRICATING

In the beginning, we were little more than a man with a truck and the motivation to build great things. Forty-six years later, our group operates one of the largest fencing installation fleets in the industry, as well as two thriving manufacturing divisions.

At Dura-Crete Walls, we are **DRIVEN BY A PASSION TO IMPROVE EFFICIENCY THROUGH INNOVATIVE PRODUCT DESIGN.**

We believe that in order for products to become real solutions, they should be both functional and affordable. Our system bridges the gap between effective design and practical construction, providing a modern look with time-tested endurance.

We look forward to working together to beautify and secure your next project with our revolutionary precast concrete system.

**Build Better,  
Waste Less  
& Endure**

PRECAST CONCRETE SCREEN WALLS, SOUND BARRIERS, SECURITY FENCING, & ENCLOSURES

STEEL GALV.

PAINT/  
POWDERCOAT

CONCRETE\*

CONCRETE WRAP

\*Please be advised, concrete posts are subject to damage in transit, require larger equipment to install, experience greater wear overtime, and are limited to 8' tall walls.

## ACHIEVE PEACE & PRIVACY

Build screen walls, sound barriers, security fencing, and enclosures with exceptional performance and efficiency. Providing complete privacy and an STC rating of 41 to 44, we make designing peaceful environments simple with a cohesive and easy to install solution.

## SCALE & ADAPT WITH EASE

The system's modular design makes it easily adaptable, simple to scale, and affordable - serving a variety of needs and applications including municipalities, multi-family residential, commercial & convenience retail, critical infrastructure, as well as data & distribution centers.

## ENDURING & TIMELESS STYLE

It's easy to build something that looks good on day one, but will it last? Dura-Crete Walls delivers the classic look of concrete with the strength and structure to endure demanding exterior environments. The unique design also makes it far easier to repair than traditional systems.

## AMERICAN MADE QUALITY

Dura-Crete Walls is part of a 2nd generation family-owned and operated company, proudly producing in Warren, Michigan since 1996. As an experienced member of the American manufacturing tradition, our standards are high - for our products, our people, and the clients we serve.
